Apr 2, 2016 kiri- ger-The Black Panthers This film is about
the rise, fall, and rebirth of the organization. At the
beginning, it's just a group of black college students who
identify with the radical ideology of the Young Panthers and
eventually embrace Marxism. Through its ability to reach
more and more people through the struggle to abolish
capitalism, and express its ideas forcefully on a wide range
of subjects, the Panthers were one of the most powerful
radical organizations of the 1960s, a group that had great
political influence and was able to bring about a number of
victories. Many in the financial services industry aren't on
board with the transition to a digital-only version of their
industry, and it's hard to blame them. According to a CFRA
survey of 679 financial services pros, more than half (52%)
said they believe their firm has sufficient resources to make

the shift to a digital-only platform and over a quarter (27%) said they already use a

A: The regex.* at the end can be made optional with a quantifier: .{6,50}? ^ # beginning of line And the repetition: .* # match any amount of characters (?!.*.{6,50}?) # no repeats of.{6,50}? (?!.*.*) # no repeats of.* ^ # match the start of a line .* # match any amount of characters (?!.*.{6,50}?) # no repeats of.{6,50}? (?!.*.*) # no repeats of.* Note that the quantifier is inside the lookahead, so that the repetition isn't repeated when.{6,50}? is repeated. But this can be made more complicated by having the (?!.*.*) lookahead ba244e880a
