I have a MVC web app that I am trying to add a RESTful PUT API to an existing project. I have added the new controller, the ActionResult, and the route. The WebApiConfig.cs has the attribute and the app.UseWebApi call. The controller, ActionResult, and route are all OK. When I click the PUT API button I get a 500 Internal Server Error. I have modified the default controller to print the Request object and the variable declarations as follows. [System.Web.Http.HttpPut] public void PutModel([System.Web.Http.FromUri] int Id, [System.Web.Http.Parameter] string Name) { System.Diagnostics.Debug.WriteLine(HttpContext.Current.Request.HttpMethod); } The debug prints fine. I will just post the entire error here as I think it may be useful to someone.
